LILLIUM SARGENTAEA

## Cold Weather Plants

FRED'K H. HORSFORD

Charlotte

Vermont

## INTRODUCTION

---

Autumn planting is all right if done at the right time and the plants properly cared for. Woody plants should not be set until all growth has ended for the year. Many of the herbaceous kinds may be set in August and September. I would refer you to my spring list for many kinds suitable for fall planting. When plants are set in the fall, if they have time to get a little start before cold weather, they give a greater return the next year than when set in spring. The later the setting is done in the fall the more carefully should they be protected the first winter. Many of my most successful customers insist that they have much better results with autumn planting. I would especially recommend late summer or early fall for the setting of Paeonias. For transplanting evergreens late August and first part of September seems to be best for fall. I am inclined to favor spring when just as convenient.

Shrubs and trees should be well mulched or banked when set in fall, for the first winter.

Early-set tulips and other fall bulbs may not require much covering, but those set late should have it, and almost all herbaceous perennials set in the fall should be well protected against the warmer spells of weather which come in winter. It is the warmer spells followed by extreme cold ones which do the damage. If, when hardy plants are once frozen in for the winter, they could stay so until severe frosts are past in the spring, they would seldom be injured. This covering should not be removed in spring until danger of severe frosts is past.

Kindly remember that those who purchase plants should return them within five days if not satisfactory. After five days I will not replace them. See fourth paragraph on second cover page of my Spring Catalogue.

## LILIES

Most of the Lilies of this list may be sent in September: but a few, like the *Auratum* and all the *Speciosums*, *Sargentæa*, and *Henryi*, are not ripe until the middle of September or October. Orders will be filled from beds as long as my stock lasts, except *Candidums* which are imported.

*Lilium candidum* makes a fall growth each year, and it is not so well for this lily when the setting is postponed until late, especially in the North.

*Candidum* lilies should not be planted more than 3 or 4 inches under, but in this northern climate we find it best to cover with some straw or swale hay just before winter, and this should be removed in the spring.

For cultural directions and more definite descriptions, please see Spring Catalogue which has been mailed.

The prices do not include postage or express, but are simply for bulbs boxed and delivered to my nearest express office.

	EACH	DOZ.
<b>Lilium auratum</b> .....	\$0.25	\$2.25
<b>L. canadense</b> (Meadow Lily).....	.12	1.25
<b>L. candidum</b> (Madonna Lily). Should be set early to insure full growth.....	.15	1.50
<b>L. Brownii</b> . One of the finest.....	.60	6.00
<b>L. croceum</b> . Golden yellow; blooms next after the <i>Dahuricum</i> .....	15	
<b>L. Dahuricum</b> . I find this to be as reliable and hardy as any kind I have tried and I think it will stand more frost than any other. The flowers are red and of good size, and the plant with age attains a height of 3 to 4 feet in good soil.....	.15	1.50
<b>L. elegans</b> . Orange.....	.15	1.50
<b>L. elegans umbellatum</b> .....	.15	1.50
<b>L. elegans atrosanguineum</b> .....	.25	
<b>L. elegans biligulatum</b> .....	.25	
<b>L. elegans fulgens</b> ( <i>L. Batemanniae</i> ). Flowers deep apricot.....	.15	1.50

	EACH	DOZ.
<b>L. elegans incomparable.</b> Deep red.....	\$ .15	\$1.50
<b>L. elegans Thunbergianum.</b> This form, I suppose, is typical <i>L. elegans</i> . It is a very hardy and permanent Lily when grown in good garden soil.....	.15	1.50
<b>L. elegans Wallacei.</b> This is a later form of <i>L. elegans</i> with smaller flowers and a reliable form. It comes along after the Fulgens.....	.15	1.50
<b>Lilium Hansoni.</b> See <i>L. maculatum</i> .....		
<b>L. Henryi.</b> In form resembles the Speciosums, a splendid and healthy Lily from the mountains of China. It grows when established, four to five feet high, flowers orange-yellow banded with green. One of the easiest lilies to grow.....	.25	2.50
<b>L. Grayi.</b> A striking plant, 4 to 5 feet high, with dark red flowers, 1 to 5 on a stalk. It goes well with white flowers.....	.35	
<b>L. japonicum roseum (Krameri).</b> The delicate shell-pink and sometimes white color of this Lily is very charming. The flowers are not of as firm a texture, and it is better to plant it where strong winds can't break the flowers. My bulbs of this variety are better than usual.....	.40	
<b>L. longiflorum.</b> Long, funnel-shaped flowers, pure white; fine.....	.15	1.50
<b>L. maculatum (Hansoni).</b> One of the most permanent.....	.40	4.00
<b>L. Maximowiczii.</b> Red.....	.15	
<b>L. regale (L. myriophyllum).</b> A fine new Lily from China, of a rather vigorous constitution, medium in height, bearing one to several handsome, white, fragrant flowers; slightly shaded pink outside and the lower inner surface primrose-yellow. Said to belong to the hardier class.....	.80	8.00
<b>L. Philadelphicum.</b> A fine native Lily which is found growing on sandy soil and usually in partial shade. It demands good drainage, and in a heavy soil is not so likely to thrive.....	.15	1.50

	EACH	DOZ.
<b>L. rubellum.</b> The earliest Lily I have grown except, perhaps, the <i>L. monadelphum</i> . The delicate pink flowers are very showy and quite durable. My bulbs of this are extra fine.....	\$	.40
<b>L. Sargentaea.</b> This fine new lily from China (see illustration) grows taller than regale with its flowers in a cluster at the summit. Its white flowers have a chocolate shading outside. While it may not be quite as hardy as regale, (I have not tested this quality) and may not be as indifferent as to soils, it seems to attain maturity sooner and is a most attractive and noble plant. It needs good drainage with a little lime. The stock is much rarer than regale and it is likely to be some years yet before its price will range with the <i>auratum</i> s and <i>speciosum</i> s.....		1.50
The <i>Lilium Speciosum</i> s are desirable for color and bloom in the garden after the phlox and other bright colored flowers are past. The delicate form and color make them useful for cut flowers.		
<b>L. speciosum album</b> .....	\$ .25	\$2.50
<b>L. speciosum roseum</b> .....	.15	1.50
<b>L. speciosum rubrum</b> .....	.15	1.50
<b>L. superbum</b> .....	.15	1.50
<b>L. tenuifolium</b> .....	.15	1.50
<b>L. testaceum (excelsum).</b> Most of my stock of this will come from Holland and may not arrive until November.....	.55	
<b>L. tigrinum splendens</b> .....	.15	1.40

## DAFFODILS, or NARCISSI

Early-flowering bulbous plants, coming before the tulips and after the crocus. One of the most important groups; fine for cutting and of easy culture. Though any good garden soil suits, they prefer a rather stiff, deep soil, and if the situation is such that they are shaded from the sun a

portion (a third or a half) of the time, so much the better. They do well among shrubbery. To get the best results, they should be set in August or September, to make a good root growth before winter. When late setting is done, the best results are postponed until the second season.

Many of the bulbs we plant in the fall—tulips, hyacinths, narcissi, etc.—make a root-growth underground after being set. If we dig up such bulbs a week or two after they have been set, we are surprised at the new root-growth which has formed at the base of the bulbs. This root-growth is often made quite late and at low temperature. Therefore, when such bulbs are planted quite late in the fall, it is well to place a thick covering of straw, manure, leaves, or some sort of covering over them to keep out frost as long as possible, that this root-growth may continue even after the surface of the ground is frozen. I have seen good results obtained in this way with late planting. The covering should come off with the early spring before the bulbs are up.

<b>Bicolor, Empress.</b> Very large flowers; white perianth, rich yellow trumpet; strong grower and fine for cutting, per 100, \$2.50	EACH \$0.05	DOZ. \$0.45
<b>Bicolor Horsfieldii.</b> Very large and early; yellow trumpet, white perianth	.04	.45
<b>Bicolor, Victoria.</b> A grand Trumpet Daffodil, with large, bold, erect flowers; perianth creamy white, trumpet rich yellow; per 100, \$2.50	.08	.65
<b>Burbidgei.</b> One of the most charming for cutting. Clear white cup, margined bright cinnabar-red; a beautiful early flowering form of <i>Poeticus</i> which comes before <i>Poeticus ornatus</i> ; very effective when bunched. The color of the cup is very rich when cut and opened under glass; per 100, \$2.00	.02	.20
<b>Burbidgei, John Bain.</b> Large; broad white perianth, with small citron-yellow cup and orange-scarlet edge	.05	.45
<b>Emperor.</b> Large flowers with primrose petals and deep yellow trumpet; per 100, \$2.00	.05	.45

	EACH	DOZ.
<b>Henry Irving.</b> Noted for its deep yellow, wheel-shaped perianth, and large and handsome yellow trumpet. . . . .	\$ .40	\$ .35
<b>King Alfred.</b> A very appropriate name for this grand new Daffodil, it stands high above all other varieties, flowers of extra size, and a beautiful shade of deep yellow, borne on long, stiff stems. The flowers last well as cut flowers or left on growing in the bed. It is a Daffodil that has to be seen to be fully appreciated. . . . .	.30	3.00
<b>Leedsii.</b> Silver white, starry perianth; lemon-yellow cup, passing to white; sweet-scented flower; fine for bouquets; per 100, \$1.50. . . . .	.03	.25
<b>Mrs. Langtry.</b> Broad white petals with large white cup, edged yellow; per 100, \$2.50. . . . .	.03	.25
<b>Poeticus.</b> Pheasant's Eye; per 100, \$1.00. . . . .	.03	.25
<b>Poeticus ornatus.</b> One of the earliest of Poet's Narcissi; a free bloomer; per 100, \$1.20. . . . .	.05	.35
<b>Princeps.</b> Per 100, \$1.20. . . . .	.03	.25
<b>Jonquilla.</b> Single, yellow Jonquils; yellow fragrant flower; per 100, 85 cts. . . . .		.15
<b>Incomparabilis, Sir Watkin.</b> A grand flower; sulphur-yellow cup; per 100, \$2.00. . . . .	.04	.40
<b>Incomparabilis, Double</b> (Butter and Eggs) A large and showy double variety. One of the largest of the double sorts. . . . .	.04	.30
<b>Von Sion, Double.</b> Large, golden yellow. . . . .	.04	.30
<b>Orange Phoenix.</b> Double, white and orange; per 100, \$1.00. . . . .	.04	.30
<b>Sulphur Phoenix.</b> This is considered much finer by some than Orange Phoenix. It flowers a little later; per 100, \$1.00. . . . .	.04	.30
<b>Mixed Daffodils.</b> To naturalize in meadows, etc.; a first-class mixture, comprising many of the best herein listed; per 100, \$1.00. . . . .	.04	.30
<b>Alba plena odorata.</b> Double Poet's Narcissus. Double, pure white, very sweet-scented. Cannot be forced. Succeeds best in rather heavy soil and partial shade; per 100, \$1.25. . . . .		.20

## CROCUSES

The ordinary spring-flowering Crocus will thrive in nearly all soils and positions. They do better planted in September than they do later or they may be set in August.

	DOZ.	100
<b>Mixed Crocuses</b> .....	\$0.10	\$0.40
<b>Mixed Crocuses.</b> Striped.....	.10	.65
<b>Mixed Crocuses.</b> White.....	.10	.65
<b>Mixed Crocuses.</b> Yellow.....	.20	1.00
<b>Mixed Crocuses.</b> Blue and Purple.....	.10	.65

## TULIPS IN MIXED COLORS

Tulips like good drainage, and when planted over a gravelly subsoil or bottom, succeed best. It is a good plan to surround bulbs with sand, unless they are put into a sandy soil. A depth of 4 inches is none too deep for cold climates. Set the bulbs 5 or 6 inches apart.

	DOZ.	100
<b>Large Early Single</b> .....	\$0.20	\$1.00
<b>Large Late Single</b> .....	.25	1.00
<b>Large Early Double</b> .....	.20	1.00
<b>Large Late Double</b> .....	.30	2.00
<b>Artus.</b> This fine red Tulip is one of the best for cutting or bedding; it comes early and lasts well.....	.20	\$1.50
<b>Canary Bird.</b> A clear golden yellow flower, large and handsome.....	.30	2.00
<b>Cottage Maid.</b> Fine rose, flushed white; one of the best pink Tulips.....	.30	2.00
<b>Duc Van Thol.</b> Crimson.....	.30	
<b>Duc Van Thol.</b> White.....	.25	
<b>Duke of York.</b> One of the best double Tulips; carmine-rose color, broadly edged with white.....	.30	2.00
<b>Golden Crown.</b> Golden yellow, edged with red. One of the best for naturalizing, as it increases rapidly.....	.25	1.50
<b>Queen of the Netherlands.</b> Soft rose, suffused with white; extra-large flower. One of the best Tulips for cut-flowers or any decoration.....	.40	2.60

	DOZ.	100
<b>Pax alba</b> .....	\$0.30	
<b>La Reine.</b> Large white.....	.25	
<b>Rose Gris-de-lin.</b> White, shaded with delicate pink; extra fine.....	.25	
<b>Mixed.</b> 500 for \$3.50.....	.20	\$ .75
<b>Parrot Tulips.</b> Choice Mixed Varieties...	.30	1.75
<b>Darwin Tulips.</b> These are later-flowering Tulips, and contain many new and beautiful shades; flowers borne on long stems. Recommended for massing in shrubbery, or very decorative in the flower-garden. Good mixture of all colors.....	.30	1.75
<b>Bybloem Tulips.</b> White ground, marked with lilac, rose, purple and violet shades. These are late-flowering and effectively grown in groups of a dozen or more.....	.30	

## MISCELLANEOUS BULBS OR PLANTS

Because they bloom early, or for other reasons, these bulbs and plants are set in autumn.

<b>ARISAEMA triphyllum</b> (Indian Turnip, EACH or Jack-in-the-Pulpit).....	\$0.12	DOZ.
<b>CLAYTONIA caroliniana</b> (Spring Beauty).....	.10	\$1.00
<b>DICENTRA canadensis</b> (Squirrel Corn)...	.10	1.00
<b>EREMURUS</b>		
<b>E. robustus.</b> See Spring list.....	1.35	
<b>MERTENSIA virginica</b> (The Virginia Cowslip). See Spring List.....	.15	1.50
<b>ORNITHOGALUM arabicum</b> (Star of Bethlehem).....	.06	.60
<b>SCILLA amoena sibirica.</b> Handsome, early, blue flowers.....	.07	.60
<b>MUSCARI botryoides</b> (Grape Hyacinth). White; ready in September; per 100, \$1.25.....	.20	
<b>M. botryoides</b> (Grape Hyacinth). Blue; ready in September; per 100, 85 cts.....		.15

**HYACINTHS FOR BEDS or FORCING**

Hyacinths like a light, loamy soil and full sun. A light roating of well-composted manure, if the ground is not already well supplied, will be of value. Plant about 3 inches deep and, if the best flowers are desired, the bulbs should be from 7 to 9 inches apart.

	EACH	DOZ.
<b>Double White</b> .....	\$0.06	\$0.55
<b>Single Pink</b> .....	.06	.50
<b>Single White</b> .....	.06	.60
<b>Single yellow</b> .....	.06	.60
<b>Double Pink</b> .....	.06	.60
<b>Double Blue</b> .....	.06	.60
<b>Double Yellow</b> .....	.06	.60
<b>Single Blue</b> .....	.06	.60

**TRILLIUMS****American Wood Lily, Indian Shamrock, or  
Three-Leaved Nightshade****FOR THE SHADY CORNER**

Like most early-blooming plants, Trilliums give better results the following spring when planted in autumn in time to make their regular root-growth, which seems to take place a few weeks after the stems have died. They form a very pretty group, which comes into bloom early, and whose leaves make a good display after the flower has passed. Trilliums like a soil with a mixture of leaf-mold or peat, and for most of them a little well-rotted manure will be beneficial. Although they may, as a rule, be grown in the sun, partial shade is the most natural place. They look best when in good-sized groups. In a good position they will last almost indefinitely.

	EACH	DOZ.
<b>Trillium erectum</b> .....	\$ .08	\$0.80
<b>T. grandiflorum.</b> Per 100, \$2.50 .....	.05	.40
<b>T. recurvatum.</b> A western species with brown-purple flowers.....	.15	1.25
<b>T. undulatum</b> (Painted Trillium).....	.12	1.10
<b>CAMASSIA Leichtlinii</b> (Giant White Camassia).....	.06	.50
<b>ERYTHRONIUM americanum</b> (Adder's Tongue).....	.06	.60
<b>E. albidum</b> (White Dog's-tooth Violet)....	.08	.80

## PLANTS NOT OFFERED IN SPRING LIST

	EACH	DOZ.
<b>Armeria plantaginea.</b> One of the Sea Pinks.....	\$0.15	\$1.50
<b>Campanula medium.</b> Cup and saucer form; rose.....	.15	1.50
<b>C. medium.</b> Double White.....	.15	1.50
<b>C. medium.</b> Blue.....	.15	1.50
<b>Clematis Durandii,</b> Bush Clematis.....	.25	
<b>C. ochroleuca</b> .....	.35	
<b>Delphinium hybridum</b> .....	.15	1.50
<b>D. grandiflorum.</b> Blue.....	.12	1.20
<b>Dictamnus Dahuricus.</b> A new and larger form with flowers much like the <i>D. Ruber</i> but much larger and more fragrant.....	.15	1.50
<b>Hydrastis Canadensis,</b> Golden Seal.....	.15	
<b>Iberis tenoreana</b> .....	.12	1.25
<b>I. corifolia</b> .....	.15	
<b>Iris Germanica Pearl</b> .....	.12	1.20
<b>Lychnis alpina</b> .....	.12	1.20
<b>L. diurna rosea</b> .....	.15	
<b>Paeonia Wm. I.</b> Large double red.....	.60	
<b>P. Teas No. 4.</b> A fine new double pink....	.40	
<b>P. Agida.</b> Double red.....	.40	
<b>P.</b> Single red.....	.30	

	EACH	DOZ.
<b>P. Lady Helen Bramwell.</b> Full double pale rose.....	\$ .35	\$3.50
<b>P. purpurea.</b> Double dark purplish red...	.40	
<b>Rudbeckia laciniata</b> .....	.15	
<b>Stachys grandiflora</b> .....	.25	
<b>Silene alpestris.</b> Pretty white flowers; nice for rockwork.....	.12	
<b>Viola cuculata</b> .....	.12	

## WOODY PLANTS

	EACH	DOZ.
<b>Rubus rosaefolius.</b> Strawberry-Raspberry	\$ .25	
<b>Lonicera.</b> Early Dutch Honeysuckle; fragrant.....	.30	
<b>Cornus circinata.</b> 1-2 ft.....	.20	
<b>Aralia spinosa.</b> 6-8 ft.....	.40	
<b>Deutzia gracilis rosea.</b> 2-3 ft.....	.30	
<b>Ligustrum Regelianum.</b> Regel's Privet. 2 ft.....	.15	\$1.50
<b>Azalea calendulacea</b> .....	.50	
<b>Rhododendron Rhodora</b> .....	.35	
<b>Salix vitilina</b> .....	.20	

## SURPLUS LIST

These sets are made up mostly of plants mentioned in my Spring Catalogue and are kinds of which I have the largest stock. We have more time to make these sets in autumn and offer them at lower rates on this account.

These offers are not open to spring delivery, because then we cannot spare the time required in filling them. Those wishing to take advantage of any offers for shrubs, trees, etc., in this list for spring setting, can get them in November, and cover them in any well-drained soil, leaving only the tips of branches exposed, where they will keep in

perfect condition, and may be set in the spring as soon as the ground is ready. For cost of boxing trees and shrubs, see my Spring Catalogue. These prices do not include postage. These offers are subject to surplus stock being sold. This stock is not a poorer grade than is used in filling orders for single or dozen lots. Deciduous trees and shrubs had better not be moved before October 15. Bulbs and plants which are entirely covered when set can be ordered until winter prevents.

Shrubs, trees, and plants, set in autumn and mulched well before winter to prevent heaving, often do better than when set in spring, especially when spring setting is late. Trees may be banked up 6 to 10 inches with soil; shrubs may be mulched with 3 to 4 inches of straw manure; and herbaceous plants may be covered lightly with brush, pine boughs, buckwheat straw, or any similar substance, that will protect without smothering.

This protection for winter is very important for all plants, shrubs, and trees set in the fall in our northern climate the first year. After they have become established the shrubs and trees and most of the herbaceous plants need not be covered.

Please do not ask us to divide these offers, nor to fill orders from this list after December 1.

25 <b>Blood root sanguinaria</b> .....	\$1.40
25 <b>Boltonia asteroides</b> .....	1.30
25 <b>Baptisia Australis</b> .....	1.60
25 <b>Columbines, 2 or more kinds</b> .....	1.75
20 <b>Golden sprurred Columbines</b> .....	1.60
20 <b>Coreopsis, 2 kinds</b> .....	1.40
25 <b>Coreopsis lanceolata</b> .....	1.80
20 <b>Crown Veitch</b> .....	.75
25 <b>Chinese perennial Delphiniums</b> .....	1.55
20 <b>Dianthus Her Majesty, hardy double white</b>	1.75
